The Scientific Monthly

Entered as second-class matter October 1, 1915, at the post office at Lancaster, Pennsylvania,
under the Act of March 3, 1879

THE SCIENTIFIC MONTHLY is conducted on the editorial lines followed by **THE POPULAR SCIENCE MONTHLY** since 1900. It publishes as the **THE POPULAR SCIENCE MONTHLY** published, articles appealing especially to educated readers as opposed to purely popular matter intended for the public generally, and for such a journal **THE SCIENTIFIC MONTHLY** appears to be the more fitting name. The editorial management, publication department and typographical form are the same as have characterized **THE POPULAR SCIENCE MONTHLY** during the past fifteen years, and have made it an important agency for the advancement and diffusion of science.
